DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4 & 27-30, drawn to method for the separation of inner and outer birch bark, classified in class 241, subclass 028.
 - II. Claims 5-16 & 31-42, drawn to extraction of natural products from outer birch bark using supercritical fluid extraction , classified in class 552, subclass 502.
 - III. Claims 17-22 & 43-48, drawn to process for producing 9,10-epoxy-18-hydroxyoctadenoic acid and its corresponding 9,10,18-triol from outer birch bark, classified in class 554, subclass 8.
 - IV. Claims 23-26 & 49-52, drawn to process for the isolation of polyphenolic polymers from outer birch bark, classified in class 530, subclass 200.

The inventions are distinct, each from the other because of the following reasons:

1. Inventions I - IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the different inventions are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects.
2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
3. Because these inventions are distinct for the reasons given above and different searches are required for Groups I-IV, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Deborah D Carr whose telephone number is 703-308-4627. The examiner can normally be reached on Monday thru Friday from 9:00 a.m. to 5:30 p.m..
